DETAILED ACTION

Claim Objections

1. Claim 2 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The amended claim 1 now includes the limitation that a random number is loaded into the destination register before transfer of the result of the operator to the register.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites the limitation "a result." It is unclear whether this result is the same as the result claimed in the last line of claim 1. In addition, there is insufficient antecedent basis for "said random number," as both a first and second random number are claimed in claim 1.

Allowable Subject Matter

4. Claims 1, 4, 6, 11-12, 17 and 18 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: No prior art taken alone or in combination teaches an integrated circuit or antifraud method which loads a first random or pseudo-random number into a temporary register, loads a second random or pseudo-random number into a destination register, an operator combining the content of a second source register and the temporary source register and storing the result in the destination register.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
